Rhode Island General Laws/UCR System

§ 12-24-1. Reporting System. – A uniform crime reporting system shall be established under the direction, control and supervision of the superintendent of state police. The superintendent of state police shall have the power and duty, by such rules and regulations as he may deem necessary to collect and gather such information from such local police departments and the enforcement division of the department of environmental management as may be and is hereinafter prescribed.

§ 12-24-2. Reports. – The police department of each city and town and the enforcement division of the department of environmental management, once each quarter, upon a date and form prescribed and furnished by the superintendent of state police, shall forward to the division of state police a crime report. Each reporting department shall report only on cases within its jurisdiction and upon which it is making, or has made, the primary police investigation. The report shall be called the uniform crime report and shall cover crimes reported and otherwise processed during the reporting period. It shall contain the number and nature of offenses and such other information as the superintendent of state police shall specify relating to the method, frequency, cause and prevention of crime. Under no circumstances shall the name of any person be reported.

§ 12-24-3. Compilation of Reports. – Upon receipt of the quarterly uniform crime reports from the reporting agencies, the division of state police shall prepare a statewide compilation of the statistics contained therein and the resulting statistical compilation shall be available to any government agency in the state, the judiciary committees of the Rhode Island senate and the Rhode Island house of representatives, and the federal bureau of investigation, upon request. The statistics made available through the uniform crime report shall be used for the purposes of studying the causes, trends and effects of crime in the state and for intelligence upon which to base a sounder program of crime detection and prevention and the apprehension of criminals.

§ 12-24-4. Other Agencies. – Any governmental agency, not falling within the description of those required to submit the quarterly uniform crime report set forth in 12-24-2, which desires to submit such a report, shall be furnished with the proper forms by the division of state police. When a report is received by the division of state police from a governmental agency not required to make such reports, the information contained therein shall be included within the monthly compilation provided for in 12-24-3.

News Update

The Rhode Island State Police began extensive implementation of the Rhode Island Incident Based Reporting (IBR) system in January 2005 with the financial support of the Crime Identification Technology Act (CITA) Grant, which was awarded to the Rhode Island State Police by the Office of Justice Programs, Bureau of Justice Statistics to assist in upgrading our criminal justice information system.

In June 2005, the FBI certified the Rhode Island Incident Based Reporting system as compliant with their stringent standards for certification in the National Incident Based Reporting System (NIBRS). This is the preferred method of collecting crime data and enforces a higher degree of accuracy and richer information.

Prior to this time, the state standard of collecting and managing crime data consisted of a paper-based Summary Based Crime Reporting system, which was the “old” national standard of collecting crime data. However, recognizing the need for an enhanced crime reporting system a more efficient method was developed nationwide – National Incident Based Reporting System.

Who contributes data to the Incident Based reporting system?

With the exception of the Providence Police Department and New Shoreham Police Department, all law enforcement agencies submit Incident Based crime statistics to the Rhode Island State Police. After quality assurance checks and error validations programs are generated, law enforcement statistics are sent to the FBI by the Rhode Island State Police.

The Providence Police Department is in an aggressive campaign to implement IBR and it is anticipated that they will be submitting test data during the next several months.

What is Incident Based Reporting?

Incident Based Reporting views a crime and all of its components as an “incident.” In order to obtain important data, facts recorded and preserved about the incident are organized into specific categories or segments. The vehicle used for recording these facts is a “data element.” Data elements provide information about crime and its involvement with victims.

Incident Based Reporting is designed to collect data on every single crime occurrence and on each incident within the occurrence. The most significant difference between IBR and the traditional Summary Based Crime Reporting system is the degree of detail in reporting. Unlike the Summary system that collects only 8 Part I crimes, IBR collects 22 crime categories made up of 47 specific crimes called Group A offenses. Additionally, arrests are reported for 11 Group B offense categories. Under the old Summary system only the most serious offense was reported. In IBR up to 10 offenses can be reported in an incident, providing a more accurate picture of crime. Because of the differences between the Summary system and Incident Based, any cross-comparisons would provide inaccurate results in trend analysis.

What are the pitfalls of ranking?

In the past, some law enforcement agencies and researchers compiled rankings of individual jurisdictions. This information can create misleading perceptions, which adversely affect geographic entities and their residents. The FBI has a longstanding policy against ranking cities, counties, and states on the basis of crime data alone. The Rhode Island State Police shares these concerns and will follow the same policy regarding ranking.

Jurisdictions should not be ranked because there are many factors that cause the nature and type of crime to vary from place to place. IBR statistics include only jurisdictional figures along with reported crime. Rankings ignore the uniqueness of each jurisdiction. All jurisdictions are affected in some degree by:

- ◆ Density and size of the community population.
- ◆ Variations in composition particularly to youth concentration.
- ◆ Economic status, including job availability, median income, and poverty level
- ◆ Stability of population with respect to residents' mobility, commuting factors, and other transient factors.
- ◆ Modes of transportation and highway system.
- ◆ Cultural conditions, such as educational, recreational, and religious characteristics.
- ◆ Effective strength of the law enforcement agencies.
- ◆ Administrative and investigative emphases of law enforcement.
- ◆ Attitude of the public toward law enforcement problems.
- ◆ Climate, including seasonal weather conditions.
- ◆ Cooperation of adjoining and overlapping police agencies.
- ◆ The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards and guidelines.

When providing/using agency-oriented statistics, the Rhode Island State Police cautions and, in fact, strongly discourages data users against using rankings to evaluate jurisdictions or the effectiveness of their law enforcement agency.

What are the major differences between IBR and the Summary?

IBR collects information on up to 10 offenses occurring in the same incident. The Summary system applies a hierarchal rule and only collects information on the most serious offense occurring in an incident and drops the others. Information is only reported on 8 crimes in the Summary system.

By design IBR measures different aspects of crime than the Summary System. Where Summary measures the overall number of incidents for a Part I crime, IBR measures both the overall number of incidents and the occurrence of each type of crime within every incident.

How will this affect crime trends?

The 2005 Crime in Rhode Island Publication is based upon Incident Based Reporting. This is the first year this type of data has been published. However, the integrity and reliability of data-based analysis and reporting depend, in large part, on the quality of the underlying data captured by the law enforcement agency.

Because of the difference in the number of offenses reported in the Summary system vs. Incident Based Reporting both in an incident and the number of classifications reported, no trend information will be available from the Rhode Island State Police until we collect at least several years of Incident Based Data. It is not meaningful to compare Summary data to IBR data. Not all of these variables can be identified or measured, compounding the error in the results. We strongly discourage trying to compare the IBR data to any data previously released or converting IBR data to Summary data. The data sets are not comparable due to the number of types of crimes reported and the fact that multiple offenses are reported in one incident. The Rhode Island State Police will focus statewide crime reports on data received from law enforcement based on the Incident Based Reporting System and not the Summary Based Crime Reporting system. It is our position that the Summary Based Crime Reporting system is antiquated and does not portray an accurate count of crime. Therefore, we will focus our statistical analysis reports based on the Incident Based Reporting system.

Verification Process

Uniformity and accuracy of crime data collected under this program is of primary concern. With the receipt of reports covering 39 reporting jurisdictions within the State of Rhode Island, the problems of attaining uniformity are readily apparent.

It is operating procedure to perform edit checks, quality control checks, reasonableness checks, and administer a statewide mail-in audit.

Also, prior to compiling *Crime in Rhode Island*, an annual *Preliminary Release* is distributed to each reporting jurisdiction based on the submission of UCR statistics. Each jurisdiction is requested to examine this release and notify the UCR Unit should any discrepancies appear.

Regardless of the extent of the statistical verification process used by the UCR Unit, the accuracy of the data assembled under this program depends on the sincere effort exerted by each contributor to meet the necessary standards of report.

Crime Factors

Data users are cautioned against comparing statistical data of individual cities and towns due to numerous factors, which are known to affect the amount and type of crime occurring from place to place.

- ◆ Density and size of the community population.
- ◆ Variations in composition particularly to youth concentration.
- ◆ Economic status, including job availability, median income, and poverty level.
- ◆ Stability of population with respect to residents' mobility, commuting factors, and other transient factors.
- ◆ Modes of transportation and highway system.
- ◆ Cultural conditions, such as educational, recreational, and religious characteristics.
- ◆ Effective strength of the law enforcement agencies.
- ◆ Administrative and investigative emphases of law enforcement.
- ◆ Attitude of the public toward law enforcement problems.
- ◆ Climate, including seasonal weather conditions.
- ◆ Cooperation of adjoining and overlapping police agencies.
- ◆ The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to UCR Crime Reporting.

Important Message to the Reader

The Providence Police Department and New Shoreham Police Department are submitting Summary-Based Data and are not contributing to the IBR Crime Reporting System. Therefore, all IBR information listed in this publication **DOES NOT** include data from these two (2) police departments. For a detailed explanation, please refer to *News Update* listed on Page 9.

However, Summary-Based Data for the Providence Police Department and New Shoreham Police Department is listed in Pages 177 through 180.

Hate Crimes Sentence and Execution

§ 12-19-38 Hate Crimes Sentencing Act. – (a) If any person has been convicted of a crime charged by complaint, information, or indictment in which he or she intentionally selected the person against whom the offense is committed or selected the property that is damaged or otherwise affected by the offense because of the actor's hatred or animus toward the actual or perceived disability, religion, color, race, national origin or ancestry, sexual orientation, or gender of that person or the owner or occupant of that property, he or she shall be subject to the penalties provided in this section.

(b) Whenever it appears that a person may be subject to the Hate Crime Sentencing Act, the prosecuting agency, in no case later than the pretrial conference, shall file with the court a notice specifying that the defendant, upon conviction, is subject to the imposition of sentencing in accordance with this section.

(c) For misdemeanor offenses, upon any plea of guilty or nolo contendere or verdict or finding of guilty of the defendant, the district court shall conduct a sentencing hearing. At the hearing, the court shall permit the prosecuting agency and the defense to present additional evidence relevant to the determination of whether the defendant intentionally selected the person against whom the offense is committed, or selected the property that is damaged, or otherwise affected by the offense because of his or her hatred or animus toward the actual or perceived race, religion, color, disability, national origin or ethnicity, gender, or sexual orientation of that person or the owner or occupant of that property. If the finder of fact at the hearing, or in the case of a plea of guilty or nolo contendere, the district court at sentencing, determines beyond a reasonable doubt that the defendant's actions were so motivated, he or she shall be sentenced to not less than thirty (30) days mandatory imprisonment, nor more than one year imprisonment for that crime: and for this penalty, he or she shall not be afforded the provisions of filing, suspension of sentence, or probation.

(d) For felony offenses and for misdemeanor offenses in which the defendant claims a jury trial either in the first instance or by appeal, upon any plea of guilt or nolo contendere or verdict or finding of guilt of the defendant, the court shall conduct a sentencing hearing. At the hearing, the court shall permit the prosecuting agency and the defense to present additional evidence to the jury relevant to the determination of whether the defendant intentionally selected the person against whom the offense is committed, or selected the property that is damaged, or otherwise affected by the offense because of his or her hatred or animus toward the actual or perceived race, religion, color, disability, national origin or ethnicity, gender, or sexual orientation of that person or the owner or occupant of that property. If the jury at the hearing, or in the case of a plea of guilty or nolo contendere, the court at sentencing, determines beyond a reasonable doubt that the defendant's actions were so motivated, he or she shall be sentenced for a misdemeanor in accordance with subsection (c) of this section and for a felony by the court to an additional, consecutive term of imprisonment for not less than one year nor more than five (5) years, but in no case, more than double the original penalty for the crime.

Rhode Island General Laws/Domestic Violence

§ 12-29-5.2 Duties and responsibilities of committee. – (a) The committee shall have the duties and responsibilities to:

(1) Establish and promulgate minimum standards for batterers intervention programs serving persons mandated pursuant to § 12-29-5, revise the standards as is deemed necessary, and make the standards available to the public, provided that the standards shall include, but not be limited to, the following:

(i) Batterers intervention programs shall be conducted in the context of psycho-educational groups, i.e., groups of domestic violence perpetrators led by one or more professional group leaders trained and experienced in batterers intervention programming and conducted for the purposes of learning and enacting non-abusive behaviors through didactic instruction, interaction among participants and leaders, and teaching of skills within the groups;

(ii) The duration of batterers intervention programs shall be a minimum of forty (40) contact hours over the course of twenty (20) weeks; and

(iii) Batterers intervention programs shall require that all mandated batterers pay fees for the programs in accordance with the provisions of § 12-29-5; provided, that programs shall accommodate varying levels of ability to pay by means of sliding fee scales and may elect to offer alternatives to payment in the form of community restitution and/or deferred payment for a portion of the fees;

(2) Monitor and review batterers intervention programs seeking certification with respect to compliance with the standards, including periodic on-site review;

(3) Certify those batterers intervention programs which are in compliance with the standards established pursuant to subdivision (1) of this subsection; and

(4) Investigate and decide appeals, complaints, requests for variances, and post-enrollment certification applications.

(b) For purposes of this chapter, "post-enrollment certification applications" means those applications made to the committee by a batterer mandated to attend a certified batterers intervention program in accordance with § 12-29-5 who has, prior to adjudication, enrolled in a program not certified by the committee. The application shall include supporting documentation from the batterers intervention program and a request that participation in the batterers intervention program be accepted in lieu of the equivalent number of hours of a certified batterers intervention program. The committee shall act upon a post-enrollment certification application within thirty (30) days of receipt of the application.

Domestic Violence

Source: The information in this section was provided in full by the Domestic Violence Training and Monitoring Unit, administered by Janice Dubois, Executive Director.

Domestic Violence data is not included in the Preliminary Release Verification Process performed by the Division of State Police, Uniform Crime Reporting Unit. Therefore, the methodology of data verification for domestic violence data will vary.

When domestic violence totals are slightly different from one report to another, it is because reports were run on different days (data changes each day).

The DV Unit is still entering 2005 DV/SA data into the database.

DOMESTIC VIOLENCE TRAINING & MONITORING UNIT

The Domestic Violence Training and Monitoring Unit, referred to as the DV Unit, has been funded by the RI Supreme Court since the passage of the 1988 DOMESTIC VIOLENCE PREVENTION ACT (DVPA), Rhode Island's first comprehensive domestic violence criminal legislation.

Historically, the DV Unit has been active in most phases of domestic violence prevention work including policy and planning regarding victim contact, victim advocacy and education, as well as the essential victim/police liaison work. While the DV Unit continues in this work, its major function has become the oversight of the design, distribution, collection, compilation and reporting of data from the mandated DV/SA Police Reporting Forms and the development of the DV/SA Database.

The DV Unit compiles police statistics on the incidence of domestic violence and sexual assault/child molestation calls/cases through the mandated DV/SA Form. It has taken a number of years to get to this point, but with the help of RI Police Departments, RI State Police and the Supreme Court MIS Unit, the DV Unit is able to provide reliable and comprehensive domestic violence and sexual assault/child molestation criminal justice statistics for the State of Rhode Island. Last year in recognition of its efforts, Senator Lincoln Chafee, through the Senate Appropriations Committee, granted the DV Unit an award of \$300,000 to operate as a national model for the gathering of domestic violence and sexual assault criminal data.

The DV Unit's web site houses two DV/SA Database Data sets (both anonymous – no direct or indirect identifiers attached to records) allowing researchers/students or other interested parties to access the data. The RI Law Enforcement section includes pertinent RI domestic violence and sexual assault laws, yearly updates on legislative action, and an instructional section on how to fill out the various sections of the DV/SA Form. Ideas from RI Law Enforcement regarding the content for the "Law Enforcement" section of our web site are welcomed. The web address is: www.courts.ri.gov – click on [Supreme Court](#), click on [Administrative Departments and Boards](#), click on [Domestic Violence Training and Monitoring Unit](#), and finally click on the [option you are interested in](#).

The DV Unit is currently staffed with an Executive Director, a Senior Management Analyst and three part-time data assistants.

Incident Based Offense Definitions

GROUP "A" OFFENSES

Since all Group "A" offenses occurring in an incident are to be reported, care must be taken to identify all such offenses involved in an incident. Care must also be taken to ensure that each offense that is reported is a separate, distinct crime, rather than just a part of another offense. For example, every robbery includes some type of assault; but because the assault is an element of the robbery, only the robbery should be reported. If during a robbery, the victim is forced to engage in sexual relations, both the robbery and forcible rape should be reported, as forced sexual intercourse is not an element of robbery. A rape case might also involve the crimes of motor vehicle theft and kidnapping, and they should all be reported. Burglary is another example because it usually always includes a larceny offense. Because burglary is defined in terms of theft, only the burglary is to be reported.

The following pages contain the standard definitions that should be used in determining the offense that has occurred. The three-digit codes listed are the standard codes for identifying the offense.
