Uniform Crime Reporting System/Incident-Based Reporting System

The Rhode Island State Police Uniform Crime Reporting (UCR) program, which began in 1969, collects information about crimes reported to the police. In 1982, BJS and the FBI sponsored a nation wide study of the UCR Program with the objective of revising it to meet law enforcement needs. A 5-year redesign effort to provide more comprehensive and detailed crime statistics resulted in the National Incident-Based Reporting System (NIBRS) which collects data on each reported crime incident. The UCR Program is currently being converted to NIBRS.

Currently under the summary program, law enforcement authorities aggregate the number of incidents by offense type quarterly and report these totals to the State Police. Under incident-based reporting, agencies will provide an individual record for each crime reported.

The summary UCR Program collects offense information on the eight Part I crimes of homicide, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson. It provides limited information about offenses, victims and offenders, and includes reported arrests for 21 additional crime categories. Under NIBRS, law enforcement authorities will provide information to the State Police on each criminal incident in 22 broad categories of offenses that occur in their jurisdiction. Details about each incident including information about multiple victims and offenders are included in NIBRS.

The following offense categories, known as Group A offenses, are those for which extensive crime data are collected in NIBRS:

1. Arson
2. Assault Offenses—Aggravated Assault, Simple Assault, Intimidation
3. Bribery
4. Burglary/Breaking and Entering
5. Counterfeiting/Forgery
6. Destruction/Damage/Vandalism of Property
7. Drug/Narcotic Offenses—Drug/Narcotic Violations, Drug Equipment Violations
8. Embezzlement
9. Extortion/Blackmail
10. Fraud Offenses—False Pretenses/Swindle/Confidence Game, Credit Card/Automatic Teller Machine Fraud, Impersonation, Welfare Fraud, Wire Fraud
11. Gambling Offenses—Betting/Wagering, Operating/Promoting/Assisting Gambling, Gambling Equipment Violations, Sports Tampering
12. Homicide Offenses—Murder and Nonnegligent Manslaughter, Negligent Manslaughter, Justifiable Homicide
13. Kidnaping/Abduction
14. Larceny/Theft Offenses—Pocket-picking, Purse-snatching, Shoplifting, Theft from Building, Theft from Coin-Operated Machine or Device, Theft from Motor Vehicle, Theft of Motor Vehicle Parts or Accessories, All Other Larceny
15. Motor Vehicle Theft
16. Pornography/Obscene Material
17. Prostitution Offenses—Prostitution, Assisting or Promoting Prostitution
18. Robbery
19. Sex Offenses, Forcible—Forcible Rape, Forcible Sodomy, Sexual Assault With An Object, Forcible Fondling
20. Sex Offenses, Nonforcible—Incest, Statutory Rape
21. Stolen Property Offenses (Receiving, etc.)
22. Weapon Law Violations

The following eleven additional offenses categories, known as Group B offenses, are those for which only arrest data are reported.

Benefits of Participation

The ability to precisely identify when and where crime takes place, its form, and the characteristics of its victims and perpetrators is an indispensable tool in the war against crime. NIBRS provides law enforcement with that tool because it is capable of producing more detailed, accurate, and meaningful data than that produced by the traditional summary UCR Program. Armed with such information, law enforcement can better make a case to acquire the resources needed to effectively fight crime. Many individual law enforcement agencies have very sophisticated records systems capable of producing a full range of statistics on their own activities. NIBRS allows common denominator links among agencies which enables them to identify common issues so that they can work together to develop possible solutions or proactive strategies for addressing these issues. Law enforcement is a public service and requires a full accounting from an agency's commissioner, chief, or director for the administration of that agency and the status of public safety within its jurisdiction. Full participation in NIBRS will provide statistics to enable a law enforcement agency to fulfill this responsibility. NIBRS has the capability of furnishing information on nearly every major criminal justice issue facing law enforcement today, including terrorism, white collar crime, weapons offenses, missing children where criminality is involved, drug/narcotics offenses, drug involvement in all offenses, hate crimes, spouse abuse, abuse of the elderly, child abuse, domestic violence, juvenile crime/gangs, parental kidnaping, organized crime, pornography/child pornography, driving under the influence, and alcohol-related offenses. The data will be available from all levels of law enforcement—federal, state, and local—aggregated at the level and in the manner which best meets the needs of the data user. Through NIBRS, legislators, municipal planners/administrators, academicians, penologists, sociologists, and the general public will have access to more detailed and accurate crime information than the summary system can provide. (UCR Handbook, NIBRS Edition, p. 3)

NIBRS Publications

Technical information on the NIBRS Program is contained in four documents:

- Volume 1: Data Collections Guidelines
- Volume 2: Data Submission Specifications
- Volume 3: Approaches to Implementing an Incident-Based Reporting System
- Volume 4: Error Message Manual

A NIBRS edition of the UCR Handbook is also available. This book is geared toward familiarizing requesters with the definitions, policies, and procedures of the NIBRS Program. It does not contain the technical coding and transmission requirements presented in Volumes 1 through 4.

NATIONAL INCIDENT-BASED REPORTING SYSTEM DATA ELEMENTS AND DEFINITIONS

1	ORI Number NCIC originating agency identifier number.	9 characters	.
2	Incident Number Assigned by the agency to identify it uniquely.	12 characters	.
3	Incident Date/Hour When the incident occurred or started, or date of report if unknown.	11 characters	MM/DD/YYYY/HH
