Verification Procedure

Uniformity and accuracy of crime data collected under this program is of primary concern. With the receipt of reports covering 39 reporting jurisdictions within the state of Rhode Island, the problems of attaining uniformity are readily apparent. Issuance of instructions and training of personnel within contributing agencies does not complete the role of the Uniform Crime Reporting Unit.

It is standard operating procedure to examine each incoming report for mathematical accuracy and completeness and, perhaps of even greater importance, for reasonableness as a possible indication of error.

Also, prior to compiling *Crime in Rhode Island*, an annual Preliminary Release is distributed to each reporting jurisdiction based on the submission of monthly UCR statistics. Each jurisdiction is requested to examine this release and notify the UCR Unit should any discrepancies appear.

Regardless of the extent of the statistical verification process used by the UCR Unit, the accuracy of the data assembled under this program depends on the sincere effort exerted by each contributor to meet the necessary standards of report.

Crime Factors

Data users are cautioned against comparing statistical data of individual cities and towns due to numerous factors which are known to affect the amount and type of crime occurring from place to place.

- ❖ Density and size of the community population
- ❖ Variations in composition particularly to youth concentration
- ❖ Economic status, including job availability, median income, and poverty level
- ❖ Stability of population with respect to residents' mobility, commuting factors, and other transient factors
- ❖ Modes of transportation and highway system
- ❖ Cultural conditions, such as educational, recreational, and religious characteristics
- ❖ Effective strength of the law enforcement agencies
- ❖ Administrative and investigative emphases of law enforcement
- ❖ Attitude of the public toward law enforcement problems
- ❖ Climate, including seasonal weather conditions
- ❖ Cooperation of adjoining and overlapping police agencies
- ❖ The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to UCR Crime Reporting Standards

Law Enforcement Code of Ethics

As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice. I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department.

Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty. I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decision. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

UCR Definitions

CRIMINAL HOMICIDE

a. Criminal Homicide - Murder and Non negligent Manslaughter:

The willful (non negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing (during the commission of a felony) of a felon by a private citizen.

b. Manslaughter by negligence:

The killing of another person through gross negligence. Deaths resulting from traffic accidents are not included in this classification.

FORCIBLE RAPE

The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory offenses (no force used - victim under legal age of consent) are excluded.

ROBBERY

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

AGGRAVATED ASSAULT

The unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed. Attacks using personal weapons (part of the attacker's body) must result in serious personal injury to be classified as aggravated assault. Simple assaults are excluded from this count.

BURGLARY

The unlawful entry of a "structure" to commit a felony or theft. The use of force to gain entry is not required to classify the crimes as burglary. Burglary is broken down into three sub classifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry. A "structure" is considered to include the following, but not limited to: dwelling houses, apartments, out buildings, public buildings, offices, factories, barns, cabins, etc.

LARCENY

The unlawful taking or stealing of property or articles without the use of force, violence, or fraud. This includes crimes such as shoplifting, purse snatching, pocket picking, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle theft, etc. This crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is excluded from this category.

MOTOR VEHICLE THEFT

The unlawful taking or stealing of motor vehicle, including attempts. This definition excludes taking for temporary use by those persons having lawful access to the vehicle.

UCR defines a motor vehicle as a self-propelled vehicle that runs on the ground and not on rails. Examples include automobiles, trucks, buses, motorcycles, mopeds, snowmobiles, etc. Thefts of construction equipment, boats, and airplanes are not included in this category but are counted as larcenies.

ARSON

The willful or malicious burning of property with or without the intent to defraud. Includes attempts. Although arson is considered a Part 1 Crime, sufficient data is not available to provide totals for this offense. The number of arsons is not included in the crime tables listed in this publication.)

Crime in Rhode Island 1998

FRAUD

Fraudulent conversion and obtaining money or property by false pretenses. Includes bad checks, confidence games, illegal conversion of services, etc., except forgeries and counterfeiting.

EMBEZZLEMENT

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control. Includes larceny from employer.

STOLEN PROPERTY

The buying, receiving, and possession of stolen property, or the attempt to do so.

VANDALISM

Incident Based Reporting System

Many Rhode Island law enforcement agencies have the capability of participating in an Incident Based Reporting system (IBR), taking advantage of computer technology and the more detailed data captured by an incident based system. Of the forty-one (41) agencies, twenty-seven (27) agencies have the capability to supply electronic incident based data. As more agencies submit IBR data to the Division of State Police, it will become a powerful law enforcement tool, providing more detailed, meaningful, and timely information about criminal activities than has been available in the past. It is hoped that Rhode Island law enforcement agencies will complete the migration from the traditional Uniform Crime Reporting system to the Incident Based Reporting system within the next few years. For a complete listing of *Records Management Database Systems* used by each Rhode Island law enforcement agency, refer to Pages 151 – 156.

IBR allows common denominator links among agencies, which is contained in a single database. Because IBR collects details about the offenses, victims, offenders, property, and arrests involved in each crime incident, it will be possible to analyze various aspects of the crime. Benefits include:

-  Eliminates duplicate entry of information which will increase productivity and will offer a higher efficiency level
-  Eliminate delays and provide immediate access when applying for grants
-  Will provide powerful relational ad hoc query and report generation capabilities
-  Enforce a reporting structure and data element coding scheme, while meeting national standards and guidelines
-  Will ensure more accurate reporting than with paper methods
-  Unlimited reporting - including large quantities of vital data that could not be gathered or processed manually
-  Interconnected information - communicating with other crime information databases
